Concepts : MVC, OOP, Routing, Middleware, Validation, Debugging

Testing : Manual Testing, API Testing, Test Cases, Bug Reporting

PROFESSIONAL EXPERIENCE

PHP Laravel Developer

E-Nirmaan Software Solutions Pvt. Ltd., Noida

October 2024 – Present

- Developed and maintained **RESTful APIs** using **Laravel 10** following **MVC architecture**.
- Built secure **authentication and authorization** using **Laravel Sanctum**.
- Designed and developed **CRUD APIs** with filtering, searching, pagination, payment status management.
- Implemented **CSV bulk upload** functionality with duplicate record validation and error handling.
- Integrated **Email** and **WhatsApp notification** services for customer payment reminders.
- Developed reporting APIs for customer summaries, payment analytics, and dashboard statistics.
- Optimized **MySQL queries** and database performance using **Eloquent ORM** and relationships.
- Implemented **request validation**, middleware, exception handling, and standardized JSON API responses.
- Performed **API testing** using **Postman** and collaborated with frontend developers for API integration.
- Collaborated with cross-functional teams using Agile methodology.

Junior PHP Developer

Taction Software Pvt. Ltd.

May 2023 – September 2024

- Developed and customized **CRM** and **SuiteCRM** modules using **Core PHP**, **OOP**, and **MySQL**.
- Built dynamic user interfaces using **AJAX**, **JavaScript**, **jQuery**, and **Bootstrap**.
- Developed email notification modules and automated business workflows.
- Optimized SQL queries and improved application performance.
- Fixed production bugs and enhanced existing CRM features.
- Managed application deployment using **cPanel**, **FileZilla**, and basic **Linux commands**.

PROJECTS

HRMS (Human Resource Management System)

Role: PHP Laravel Developer

Technology Stack: Laravel 10, PHP 8.2, MySQL, Bootstrap 5, JavaScript, jQuery, AJAX

- Developed Employee, Attendance, Leave, Expense, and Notification modules.
- Implemented secure login with **OTP verification** and **Role-Based Access Control (RBAC)**.
- Built REST APIs with request validation, middleware, and structured JSON responses.
- Designed MySQL database schema using **Eloquent ORM**, relationships, and migrations.
- Integrated email notification services for employee workflows.
- Improved application performance through SQL query optimization and debugging.

Strive – Task Management System

Role: PHP Laravel Developer

Technology Stack: Laravel 10, PHP 8.2, MySQL, Bootstrap 5

- Developed task creation, assignment, tracking, and activity log modules.
- Built secure REST APIs with authentication and authorization.
- Implemented task update notifications and user activity tracking.
- Designed scalable database structures with optimized SQL queries.
- Performed API testing using Postman and resolved production issues.

TESTING EXPERIENCE

- Performed manual testing of web applications and REST APIs.
- Created and executed test cases for application modules.
- Verified API responses using Postman.
- Reported, tracked, and resolved software defects.
- Performed regression testing after feature implementation.

EDUCATION

- **Bachelor of Arts (B.A.) 2018**
- Dr. Ram Manohar Lohia Avadh University, Ayodhya, Uttar Pradesh
